CONSTRUCTION UPDATE

**Gorge Road, from Balfour Avenue to Washington Street
Asphalt Resurfacing Transportation Project
July 2018 – August 2018**

Dear Sir/Madam:

The City of Victoria will be repaving Gorge Road from Balfour Avenue up to and including the Washington Street intersection. Underground maintenance improvements have commenced and the road works are tentatively scheduled to start by the middle of July and are expected to be completed in August.

We will forward another construction notice once our road resurfacing works are finalized which is currently being reviewed with our Engineering and Construction teams. As well, our paving contractor will deliver a construction notice three days in advance of final paving.

Improvements for this project are as follows:

- **Storm Water Control:** New catch basins, pavement, and concrete curb and gutter will provide better storm water control.
- **Road Reconstruction:** The existing pavement structure will be reconstructed, renewing the City's investment in the lifecycle condition of road and sidewalk infrastructure.

The City of Victoria will work to minimize inconveniences during construction. Local access will be maintained and some parking restrictions will be required. The construction area will be clearly marked with signs.

If you have any questions, comments or concerns, regarding this project please contact me at 250-883-0513 or cjalonen@victoria.ca.

Regards,

Christopher Jalonen, AScT
Works Technologist
