NOTICE OF CONSTRUCTION

**Hillside Avenue, from Pleasant Street to Turner Street
Streets Rehabilitation Program
September 2017- October 2017**

Dear Sir/Madam,

The City of Victoria will be constructing roadway improvements on Hillside Avenue from Pleasant Street to Turner Street as part of the 2017 streets rehabilitation program.

Construction is scheduled to begin the week of September 11, 2017 with final paving tentatively scheduled for September 24 or October 1, 2017. Once the paving date is confirmed an updated letter will be issued.

The improvements for this project include:

- **Street drainage improvements:** Installation of new catch basins and an asphalt water control will improve street drainage.
- **Road pavement improvements:** Installation of a new asphalt road surface will improve pavement performance and longevity.

Local access will be maintained as work permits and some parking restrictions will be required at times. Traffic changes such as lane closures and possible road closures resulting in detours may also be necessary. The construction zone and traffic changes will be marked with signs.

Please note that street closures and detours will be in effect on the day of final paving and our paving contractor will issue notification three days prior.

If you have any questions, comments or concerns regarding this project please do not hesitate to contact me at 250.883.0513.

Regards,

Chris Jalonen, ASCT
Public Works Technologist
