

November 2, 2020

**NOTICE OF CONSTRUCTION**

**Jutland Road, from Gorge Road to Burnside Rd  
Water Main Construction  
November 2020 – January 2021**

The City of Victoria is planning a water main construction project in your area to improve the safety, quality and reliability of your drinking water.

The existing 150mm cast iron water main will be replaced with a 200mm Polyvinyl Chloride (PVC) water main. Construction is scheduled to begin the week of November 16, 2020 and last approximately ten (10) weeks.

The scope of work includes:

- installation of a new 200mm PVC water main
- seismic upgrades to protect the water distribution system
- upgrading existing water services; and
- street and sidewalk restoration, as required.

City crews will work to minimize any inconvenience during construction. Local vehicular and pedestrian access will be maintained, however parking restrictions, and traffic diversions will be required at times. In addition, you will be notified in advance of any scheduled water service interruptions.

The City of Victoria would like to thank you in advance for your patience and support during this construction project. If you have any questions, comments or concerns, regarding this project, please contact the undersigned at 250-883-0472 or [kturpin@victoria.ca](mailto:kturpin@victoria.ca).

Regards,
